

WHAT'S NEW IN YOUR COMMUNITY

City Electric Supply recently partnered with one of our GTA customers to help revive this Government building. Supplying some of the very best products in the industry, we were able to make this stand out brighter creating a more majestic appearance. Well done CES Toronto Group for your involvement in this amazing transformation!

The City Electric Supply Projects and Quotation Department is equipped with talented and knowledgeable staff proudly working in association with a variety of suppliers to get you the exact products needed to get the job done. Our strong business relationships help meet your budget large or small, while providing a complete service from

the quotation stage of a tendered project, through to the order management and administration process. Reach out to one of our dedicated associates in a region near you for more information on what we can offer.
